

United We Stand

Bargaining Update #1

December 1, 2006

1. Your **Contract Negotiating Committee (CNC)** held its first meeting November 27-28 in Anchorage to organize and begin reviewing issues.
2. We have notified the state we want to meet as soon as possible to negotiate a new contract.
3. At this initial meeting we met with the ASEA Health Trust to discuss its needs.
4. Our top priority at this time is to solicit information and communicate with you, the members of our Union. To this end we are doing the following.
 - A. Scheduling meetings with the Statewide Executive Board and the Chapter Presidents.
 - B. Setting up a CNC website where we will post announcements and have the capability for on-line discussions.
 - C. We have prepared a survey for member input.
5. Our next meeting will be December 12-13.
